FOR IMMEDIATE RELEASE

FREE Wi-Fi NOW AVAILABLE ON ALL LOCAL FIXED ROUTE BUSES

March 19, 2019, Marysville, CA – Yuba-Sutter Transit has expanded the offering of free on-board Wi-Fi service to all local fixed route buses allowing even more passengers to stay connected while using the bus. The free Wi-Fi service that was rolled-out on 13 commuter buses last summer was so well received by passengers that it has just been added to the 22 local fixed route buses as well. Passengers can now check their email, catch up on the news and surf the web while they ride.

This is just the first of several new technology features that Yuba-Sutter Transit is implementing over the next few months to enhance the passenger experience. Additional improvements include the availability of real-time service alerts, bus location data and time of arrival projections available from any internet connected device. Stay tuned for future announcements of these and other services.

We are excited to extend free on-board Wi-Fi service to our local fixed route passengers and we certainly invite your feedback. Please contact our office at (530) 634-6880 or drop us an email at info@yubasuttertransit.com to let us know what you think.
