

The commuter bus transporting you on your essential trip has been thoroughly sanitized each night with an EPA N listed sanitizer applied with an electrostatic fogging applicator. In between all routes, our drivers re-apply this sanitizer by hand to ensure all high touch and seating areas are clean and safe for the next passenger. Sanitization processes are tracked daily by our maintenance manager and regularly audited by our operations manager.

**December 2020**

## WEAR MASKS!

Masks are required to board and ride any of our services. This requirement was mandated by the Governor's Order with some exceptions.

Signage and driver instruction should be followed at all times per the passenger code of conduct.

## SPREAD OUT!

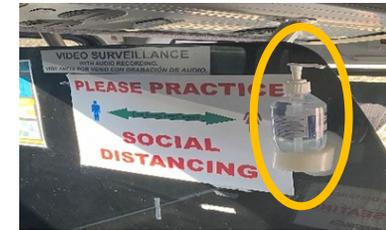

Our 57-passenger commuter buses are relatively empty. We currently average 4 - 5 riders per trip!

Everyone can agree the best way to significantly reduce the risk of transmission of any virus is to give space.

Spread out to stop the spread!

## SANITIZE!

Hand sanitizer is available on every commuter bus!

Use it as you board and again as you de-board!

## LIMIT CONTACT!

Loading your fare online ahead of time means you can just tap... and GO!

## Finally... RELAX!

Stress has been shown to weaken our immune response. Give yourself a healthy advantage! Sit back, relax and enjoy your socially distanced, Wi-Fi equipped trip on our commuter service.
