EQUIPMENT INVENTORY

The following is an organized list of the existing equipment inventory at the Yuba-Sutter Transit Maintenance Facility, as well as corresponding photographs of that same equipment. The equipment inventory list is organized by location, and the photographs are listed numerically by mark number in accordance with the list. The intent of this inventory is to establish not only a baseline understanding of the equipment in use at the current Yuba-Sutter facility but also the equipment condition and clarification of location.
